

Atria Property Services S.A. implements an **Integrated Management System** that complies with the **Information Security Management System ISO 27001:2022** standard and is committed to:

- Ensuring the confidentiality, integrity and availability of information processed, stored, transferred electronically or physically through the company's staff and information systems.
- The timely and rapid identification and response to emergencies related to a breach (or possible breach) of the security of the company's information.
- Ensuring the information security policy and the information security objectives are established and are compatible with the strategic direction of the company.
- The protection of the company's investment in information and communication technologies.
- Compliance with the requirements of Greek and European legislation in matters of personal data management, communications privacy, copyright, etc. in the area of its activities.
- The continuous improvement of the Integrated Management System.
- Define the business requirements regarding information systems availability.
- Define the interested parties and internal/external issues concerning the Company's Functions.
- Implementing a risk assessment procedure to identify threats and opportunities.

It is important for **Atria Property Services S.A.** to have the necessary resources to support the Integrated Management System, provide its staff with the necessary knowledge, and raise their awareness on information security issues, while utilizing their skills and capabilities.

Atria Property Services S.A. fully recognizes the objectives of the Integrated Management System and supports their implementation.
